Moving Beyond Survival Mode in Distance Education
and Getting Organized for Online Learning with Global-CPD

Since the beginning of the pandemic which brought face-to-face learning largely to a halt nearly a year ago, schools all around the globe have been trying various ways of distance education and delivering mostly online classes.

Accordingly, training institutions have been carrying out online education seminars and courses for educational professionals. Covid-19 won't last forever, but online learning is here to stay.

A blend of online and in-person lessons was set to be the education world's "new normal" in the wake of the pandemic. However, many schools are still struggling with a transition to online learning. It has become clear that the pandemic has permanently altered the way students learn. Virtual classes are now a regular part of teachers' school experience. Correspondingly, they need fresh online teaching ideas.

The pandemic will eventually be contained, but its impact on education will remain. The days of one-size-fits-all teacher training policies must end. The trainers also have to be innovative with the curriculum, pedagogy, teaching methods, and even the way they structure trainings and activities. Ultimately, we need to provide organized and up-to-date training options for teachers and school admins.

Global-CPD is aiming to deliver high-quality teacher training webinars and courses for schools. There is already a wide range of online courses, workshops, and seminars on e-learning available for teachers. However, we aspire to provide premium, innovative and up-to-date courses that do not repeat whatever is said until now but put forward something new and practical that will make things easier for teachers and students.

Global-CPD

2021 Webinars

726 - 5E Instructional Model in Virtual Learning Environments

Introducing the phases of the 5E model (Engage, Explore, Explain, Elaborate, and Evaluate) as well as how to implement each phase in the online classroom allowing students to make their own discoveries and therefore improve their learning

Global CPD | Learning Teachers Lead the Way

Global-CPD

2021 Webinars

423 - Total Physical Response (TPR) in the Online Classroom

Teaching young learners through online Total Physical Response (TPR) - making things, drawing pictures, completing puzzles, labelling pictures, matching words and pictures, playing games, acting out movements in response to instructions and other activities that involve hands, eyes and ears

Global-CPD

2021 Webinars

570 - Teaching English through Drama and Theatre Techniques

How to put on an online primary school play using drama techniques in the foreign language classroom - drama as a tool for enhancing speaking opportunities for young learners - engaging children as storytellers on vocabulary development through interactive storytelling
Global-CPD

2021 Webinars

842 - Teaching Ideas for Online Classes in the Primary

Designing engaging classes - intriguing warm-up activities, sharing teaching materials online, interactive storytelling, integrative online drama techniques, dealing with mixed ability groups online, keeping track and evaluating homework and how parents can help pupils with online learning

Global-CPD

2021 Webinars

884 - Time Management Skills That Improve Online Learning

Effective online lesson planning and getting better at time management - preventing lecturing and adjusting teacher and student talking times during online classes - reducing mother language use in English classes - different aspects of the online learning experience

Global CPD | Learning Teachers Lead the Way

Global-CPD

2021 Webinars

487 - E-Learning Techniques and Approaches for Primary EMI

E-learning approaches to CLIL teaching - tools and techniques supporting both the language and the subject learning - insights into basic rationale and rules of integrating primary school content and language through digital platforms - increasing attention to subject-specific vocabulary

Global-CPD

2021 Webinars

262 - CLIL Wheel with 4Cs and 10 Parameters

CLIL Wheel with 4Cs and 10 Parameters - considering how to work
CLIL into your online syllabus - focusing on tasks for online science
classes - transcending traditional approaches to both subject and
language teaching by adoption of CLIL gradually

Global-CPD

2021 Webinars

736 - Promoting a Growth Mindset for CLIL

Promoting a Growth Mindset though Innovative Projects and
Activities for CLIL - Discover how to plan, teach, and assess in a CLIL
context - Design theory and practise more effectively and cover the
learning outcomes of your class with the possibility for personal
and academic growth

Global CPD | Learning Teachers Lead the Way

Global-CPD

2021 Webinars

966 - Innovative Online Ideas for Primary Classrooms

Innovative online activities designed for the primary classroom -
online language teaching methodology from the primary learner's
perspective - how to build on teaching knowledge and skills for
primary English teachers through engaging and time-efficient
online activities

Global CPD | Learning Teachers Lead the Way

Global-CPD

2021 Webinars

309 - Strategies for the Key Challenges of Online Teaching

Creating advanced strategies for the key challenges of teaching English online - developing learners' writing and speaking abilities using differentiated instruction - improving teachers' abilities and confidence in their use of new methods and technology appropriate for primary learners

Global-CPD

2021 Webinars

546 - Developing Skills in Organising and Planning Online Education

Providing teachers with a basic level of awareness and skills in organising and planning online education - demonstrating how focused observation can liven up online lessons - developing a range of online observation tools which help teachers to better plan their e-learning syllabus

Global CPD | Learning Teachers Lead the Way

Global-CPD

2021 Webinars

116 - Integrating Project Based Learning (PBL) into e-Learning

Project Based Learning - student-centred learning activities that involve dynamic classrooms where students can acquire a deeper knowledge through active exploration of teaching allowing students to demonstrate their capabilities while working independently

Global CPD | Learning Teachers Lead the Way

Global-CPD

2021 Webinars

993 - NeuroEducation: Brain-Based Learning in Your Online Classes

NeuroEducation: Incorporating Components of Brain-Based Learning into Your Classroom for On-site or Online Teaching - Learn how conditioning and modelling shape the brain - Practice and apply strategies that help students overcome obstacles in their thinking and learning

Global-CPD

2021 Webinars

724 - Developing Executive Function Skills through Task-Based Learning

Helping students develop executive function skills through Task-Based Learning - enabling the students to be active, interact with each other, learn by doing and develop their language knowledge through communicative tasks, replacing the traditional, teacher-centred lessons
